
	<p style="text-align: center;">Weather Forecast Division Thai Meteorological Department</p>	<p style="text-align: center;">Medium Range Forecasts Weather Outlook During 31 January – 6 February 2026</p>	
<p>Weather Forecast: During 1 - 4 Feb 2026, another moderate high-pressure system from China will extend to the upper country and the South China Sea with a decrease in temperate. The northeast monsoon prevailing over the Gulf, the South and the Andaman Sea will strengthen. The wind and waves in the lower Gulf are likely about 2 meters high and above 2 meters high in thundershower. After that during 5 - 6 Feb 2026, the moderate high pressure covering upper Thailand will weaken with an increase in temperaute and morning fog.</p>			
<p>Warning: During 31 Jan – 1 Feb and 5 - 6 Feb 2026, people in the upper Thailand and the upper South should keep healthy due to changable weather. Passengers should beware of poor visibility. People in the upper Thailand should be aware of increasing dust for health concern due to the weak convection and weak wind.</p>			
<p>The weather forecast is valid from Saturday this week until Friday next week</p>
