Daily Weather Forecast Distribution

Monday 1 December 2025

Issued at 2300 LST

General Situation

The high-pressure system from China covering upper Thailand, the upper South and the South China Sea is weakening with an increase in temperature and morning fog. Morning cool to cold is forecast in the upper country. People in the upper country and the upper South should keep healthy due to variable weathers including beware of fire due to dry air.

The northeast monsoon prevailing over the Gulf, the South and the Andaman Sea is weakening with isolated rain. The wind and waves in the Gulf and the Andaman Sea are expected about 1 meter high and above 1 meter high in thundershowers. All ships should proceed with caution and keep off thundershowers.
