Daily Weather Forecast Distribution

Saturday 31 January 2026

Issued at 0500 LST

General Situation

Another moderate high-pressure system has covered southern China. It is expected to reach upper Vietnam and Laos by today, and then extend to the upper Northeast. A 1-2 °C drop in temperature with cool to cold weather is likely in the Northeast, while cool to cold weather with fog and dense fog is expected in other regions. Isolated rain is possible in the East. People should stay healthy due to changeable weather, and all transport should exercise caution due to poor visibility.

The weak northeast monsoon prevails over the lower Gulf and the lower South with less rain in the South. Moderate winds and waves in the lower Gulf are expected to be 1-2 meters high, and about 1 meter high in the upper Gulf and the Andaman Sea.

In addition, during 1-4 Feb 2026, another moderate high-pressure system from China will extend to the upper country and the South China Sea, causing a decrease in temperature.

Weather Forecast for Thailand from 6.00 a.m. Saturday to 6.00 a.m. Sunday

<u>North</u>	Morning cool to cold with fog and dense fog in someplace. Minimum temperature 14-19 °C. Maximum temperature 31-34 °C. Cold to very cold on mountain tops: minimum temperatures of 5-13 °C. Northeasterly winds 10-15 km/hr.
<u>Northeast</u>	Morning cool to cold with fog and 1-2 °C drop in temperature. Minimum temperature 14-19 °C. Maximum temperature 32-34 °C. Cold on mountain tops : minimum temperatures of 9-15 °C. Northeasterly winds 10-20 km/hr.
