

General Situation

The heat low-pressure cell covers upper Thailand with hot to very hot and haze during the day. People in the country should keep healthy due to hot to very hot weather. Meanwhile, the southwesterly and southerly winds prevail over the lower Northeast and the East regions with isolated thundershower with gusty wind. People in the areas should beware of severe conditions.

The southeasterly wind prevails over the Gulf, the South and the Andaman Sea with isolated thundershower and heavy rain.
